Shelley's life was marked by intellectual curiosity and personal tragedy, which influenced her writing deeply. She began writing Frankenstein at the age of 18, during the summer of 1816, a period often called the "Year Without a Summer" due to the volcanic ash from Mount Tambora's eruption blocking sunlight and causing worldwide climate anomalies.

The Creation of Frankenstein

The novel was conceived during a ghost-story contest among friends, including Percy Shelley and Lord Byron. The story of Victor Frankenstein and his creature emerged from these gatherings, inspired by contemporary scientific debates about galvanism and the possibility of reanimating dead tissue. Shelley's background in science, philosophy, and literature contributed to the novel's rich themes exploring the boundaries of scientific inquiry and ethical responsibility.
