What is Forex Trading?

Forex, or foreign exchange trading, involves buying and selling currencies against each other in a decentralized global marketplace. It is the largest financial market in the world, with an average daily trading volume exceeding $6 trillion as of 2023. Features of Currency Options: - Flexible strategies including hedging and speculative plays. - Limited risk to the premium paid for the option. - Use of various strategies like calls, puts, spreads, and straddles. - Can be used to manage risk in volatile markets.

Core Principles of Day Trading in Forex and Options

Key Principles
